

## Nicole Caza's Publications

### Book Chapters

1. **Caza, N.**, Taha, R., Qi, Y., & Blaise, G. (2008). The effects of surgery and anesthesia on memory and cognition. In W.S. Sossin, J.-C. Lacaille, V.F. Castelucci, & S. Belleville (Eds.), *Essence of Memory* (Progress in Brain Research; Vol 169), Oxford, UK: Elsevier, 409-422.
2. Rainville, C., **Caza N.**, Belleville, S., & Gilbert, B (2006). Neuropsychological Assessment. In S. Gauthier (Ed.), *Clinical Diagnosis and Management of Alzheimer's Disease*. Abingdon, UK: Taylor and Francis, 67-80.

### Articles

1. Macé, A-L., & **Caza, N.** (2011). The Role of Articulatory Suppression in Immediate False Recognition. *Memory*, 19, 891-900.
2. **Caza, N.**, Ciquier, G., & Macé, A.-L. (2011). Over-reliance on Semantic Memory in Immediate Serial Recognition of DRM Lists in Older Adults: Evidence from Articulatory Suppression. *Procedia: Social and Behavioral Sciences*, 23, 191-192.
3. Massicotte, PL., Androver-Roig, D., Ansaldo, AI., & **Caza, N.** (2011). Source memory in Older Monolinguals and Bilinguals. *Procedia: Social and Behavioral Sciences*, 23, 33-34.
4. **Caza, N.**, Doré, M-C., Gingras, N. & Rouleau, N., (2011). True and False Memories in Adolescents with Psychosis: Evidence for Impaired Recollection and Familiarity. *Cognitive Neuropsychiatry*, 16(3), 218-240.
5. Mace, A.L., **Caza, N.** (2010). Naming Deficits in Dementia of the Alzheimer Type: Semantic Breakdown or Lexical Access Deficit? *Procedia: Social and Behavioral Sciences*, 6, 187-188.
6. **Caza, N.**, Belleville, S. (2010). La Société de neuropsychologie de langue française à Montréal. *Revue de Neuropsychologie, Neurosciences cognitives et cliniques*. 2010; 2(2) :87-8.
7. Doré, M-C., **Caza, N.**, Gingras, N., Maziade, M., & Rouleau, N. (2009). Effects of phonological and semantic cueing-processing on encoding and retrieval processes in adolescents with psychosis. *Journal of Clinical and Experimental Neuropsychology*, 31(5), 533-544.
8. **Caza, N.** & Belleville, S. (2008). Reduced short-term memory capacity in Alzheimer's disease: The role of phonological, lexical and semantic processing. *Memory*, 16(4), 341-350.

9. Doré, M-C., **Caza, N.**, Gingras, N. & Rouleau, N. (2007) Deficient relational binding processes in adolescents with psychosis: Evidence from impaired memory for source and temporal context. *Cognitive Neuropsychiatry*, 12(6), 511-536
