Please pick up your insurance cards.

Graduating in December? Make an appointment now to apply for OPT.

Students who are graduating in December 2010 should make an appointment now with Kim to begin an application for Optional Practical Training. Keep in mind that the application process can take up to 3 months, so if you wish to begin working immediately after graduation, apply early enough to ensure you will receive the card before you graduate. Information on the application process is available on our 'Forms' page:
