This form is provided to assist students in program planning. Ultimate responsibility for compliance with all university requirements rests with the student. Students must familiarize themselves with policies, requirements, and regulations outlined in the catalog. Students are expected to access the UW-Superior email system, as it is an official communication tool for University business.

Students interested in a Masters degree in Art Therapy need to familiarize themselves with the Admission Requirements for the particular school they wish to attend.

Please note that 120 credits are required to graduate. General Education requirements and Major requirements may not be 120 credits.
