

Always on the Move

IANA 2014 and TRB 2015

IANA 2014

The Transportation and Logistics Club sponsored eight people to go to the 2014 Intermodal Association of North America (IANA) Expo in Long Beach, California in September of 2014. Andre Anderson, Eric Dahlberg, Natalie Burger, Brad Roy, Erica Hansen, Chace Parask, Andy Kast, and Dan Priewe all attended the trip. Here we all went on facility tours, attended information sessions, and networked with hundreds of potential employers. Andre, Dan, and Eric presented the case study that all eight individuals worked on. We competed against the University of Maryland, the University of North Texas, and the University of North Florida.

2014 UW-S IANA Expo Attendees

Attendance at this event would not have been possible without the scholarship and sponsorship of IANA.

We also had the pleasure of having dinner with UW-S Grads *Susan Daniel* (1963), *Brad Lindahl* (1983) and his wife, *Cathy*. We would like to also thank the following UWS Grads for the financial support for the event: *Ed Ansel* (1945), *Jeanne Chuy* (1962), and *Diane Taylor* (1961). Thank you all again for your hospitality.

“We had the opportunity to network with industry professionals in multiple different settings. We were also fortunate enough to go on a private boat tour of the largest port complex in the U.S.” -Andy Kast

Coming Events:

- Oct 9:** T & L Club Meeting
 Guest Speaker:
 Dr. Richard Stewart
 “\$\$\$ FREE Money \$\$\$”
 12:00 – 13:00
 Erlanson 102
- Oct 14:** T & L Club Meeting
 The State University of New York- Maritime Master Degree Program Presentation
 12:00 – 13:00
 Erlanson 102
- Oct 23:** T & L Club Meeting
 Dress for Success (Tentatively Planned)
 12:00 – 13:00
 Erlanson 102
- Nov 4:** Joint Twin Cities Transportation Trip with French Club Students
 07:30 (Sharp) - 22:00
- Nov 24-25:**
 Transportation Overnight Trip to Madison, WI
 Wisconsin DOT
 11/24 @ 1800—
 11/25 @ 2200
- Dec 5:** Senior Send-off
 Ace's on 29th
 17:30–22:30

Le Havre University

The Transportation and Logistics Program has made a French connection. UW-Superior signed a new partnership with University of Le Havre in France. The city of Le Havre, population 250,000, is on the English Channel and is the second most important port in France. Transportation and logistics students may study

for one or two semesters at University of Le Havre in a program highly compatible with ours. Some courses are offered in English, and only an intermediate mastery of French is expected in order to participate in this program. Learning to communicate in another language is an essential component of a well-rounded professional resume. If you have studied French in high school, you may even be able to translate your previous learning into free retroactive college credit. All in all, you will gain a rich multicultural experience and a global perspective by studying abroad in Le Havre. For more information, please contact Dr. Richard Stewart or Dr. Virginia Donovan, who teaches French at UW-Superior.

- CN Railroad
- ⇒ Yimin Yu
- Q2 International Logistics
- ⇒ Wei Xie
- Trans Parcel LLC
- ⇒ Taylor Bowerman
- Woodville Warehousing
- ⇒ Andre Anderson
- C.H. Robinson

TRB 2014

“Over the winter break, I was awarded the opportunity to attend the Transportation Research Board’s 93rd Annual Meeting in Washington D.C. The meeting began on January 12th and ran till January 15th. There were over 10,000 transportation professionals from all parts of the globe. I was able to attend a few different types of events during the meeting including a Marine 101 workshop session, a Social and Economic Factors Transportation poster session, a Marine and Intermodal caucus, and a Railroad Committee meeting.

It was also nice to walk around and talk to companies looking to hire in the field of transportation. I was able to speak with CSX railroad, The National Highway Institute freight and transportation logistics division, Ugridd, the U.S. Department of Transportation, and Eco Counter. I would recommend attending a transportation conference or meeting due to the many different opportunities that one can encounter.”

Once again this year the T&L Club will be looking to send *four* students to TRB in Washington D.C., January 11th–15th, 2015. So, if you are interested in attending, please look for the announcement by email.

Erica Hansen, Natalie Burger, and Dr. Amit Mokashi attended the Mid-Continent Transportation Research Symposium on August 21st-22nd, 2014

Summer Youth Camp 2014

During the week of July 28th to August 1st 2014, Michigan Technological University’s Rail Transportation Program and the University of Wisconsin Superior’s Transportation and Logistics Program led the 5th annual Rail and Intermodal Summer Youth Program. Twenty-four high school students from all over the United States came together to explore what Ishpeming/Marquette and Duluth/Superior (The Twin Ports) has to offer for rail and intermodal transportation. The success of this program has continued to grow throughout the years because of the synergy between Michigan Tech and UW - Superior, along with the key support of the industry.

The Summer Youth Program reached students from across the country. Two of the 24 students were female. A total of seven adults were present during the program. This included three university professors, along with four undergraduate level student assistants.
