

# Accounting

Comprehensive Major | Four-year Curriculum

## School of Business and Economics

Our School of Business and Economics has a strong reputation for preparing students for success in business. A strong foundation with an extensive array of knowledge in general business practices will prepare you for a wide range of careers.

The school also has strong ties with businesses and organizations in the community. Involvement with these community partners is a part of a student's education at UW-Superior. Many classes include:

- Guest speakers
- Projects involving local businesses
- Field trips to businesses
- Business simulations

## The Experience in Accounting

UW-Superior's major in Accounting offers students a broad business education that gives in-depth knowledge in the field of accounting and auditing. Courses in the program provides students the skills they need to achieve an accounting career of their choices. Students take a variety of courses such as:

- Financial accounting
- Auditing topics
- Fraud examination
- Cost accounting
- Business law
- Taxation

Accounting program instructors include certified public accountants and certified management accountants who all have real-world experience in accounting.

Completion of the program prepares students to take examinations for:

- Certified public accountant
- Certified managerial accountant

- Certified fraud examiner
- Certified internal auditor

## Career Possibilities

According to the U.S. Department of Labor, the average salary of an accountant exceeds \$65,000. Jobs in accounting are also growing at an above average rate. By becoming an accountant, you could gain a career as a:

- Auditor
- Bank examiner
- Financial analyst
- Fraud examiner
- International accountant
- Loan officer
- Chief financial officer
