The Broad Field Scienc Major is primarily for prospective teachers, as the course work prepares students to teach science in middle and high school. The Broad Field Science major requires students to take the introductory two course sequence in four disciplines (Biology 130/132, Chemistry 105/106, Geology 110/112, Physics 107/108 or Physics 201/202), as well as additional course work (total of 14 credits in two other areas, of 54 science credits total) They do not have to be taken in any particular sequence and are thus indicated as Intro Science 1 & 1A, 2 & 2A, etc. For a complete list of requirements, please see the catalog at <http://www.uwsuper.edu/catalog/2012-14/majorsandminors/undergraduate/programs/bfs.cfm>
