

## Academic Program Review Council

Minutes of May 10, 2012. 2:30-4:30 pm, Swenson 1007

**Members Present:** Li; Stocker; Tucker; Jacobs

### **Announcements:**

- Query received from Comm Arts: "Given the Council's confusion over where to look/how to find docs referenced in the review and contained in the Accomplishments Section, do we submit another binder with the concerns addressed (labels & tabs), or just be more clear in our narrative reference?" APRC Chair responded "...sufficient to stick with the original binder and just be more clear in the concerns addressed via the narrative reference."
- Jacobs noted that she had forwarded to the Council the response from the Comm Arts Chair received May 7, and that council was prepared to have a final report for Senate on May 15.
- Report on expected completion of Natural Science review shortly, but probably not before next week.

### **Review:**

Review of the response of Communicating Arts to the APRC's response to the Comm Arts program review. Council worked on items for final findings and recommendations.

Other: Continued Discussion of document formerly known as SSCI. Council would like to recommend to Senate that the document created by the Ad Hoc committee be adopted for use by the next review cycle, but that APRC be directed /allowed to work to make it a better document for the campus.
