

Data Collection

The data represent the status of students who received undergraduate degrees during the 2015-16 academic year. Information was collected by Career Services and Institutional Effectiveness through May 2017 using self-reported surveys, faculty/departmental reports, National Student Clearinghouse, social media, and telephone responses. Data collection and analysis follow guidelines published by the National Association of Colleges and Employers (NACE).

Q: What did undergraduates from each department do after graduation?

Click for detailed lists:
