A one day summer campus event on:

Improving Student Learning in General Education through Assessment

This will be an excellent opportunity for the faculty and staff involved in the General Education (GE) instruction to:

- Learn about the General Education program’s newly adopted learning goals and assessment plan.
- Discuss how the GE learning goals are related to and assessed in each of the GE courses.
- Provide the General Education Committee with insights and questions regarding the GE student learning assessment.

General Education (GE) is a foundation of our Public Liberal Arts mission, and it is critical for all of us to find out how well the current GE program is serving students to achieve the GE learning goals.
