Not sure when your finals are, check out the schedule at uwsuper.edu/registrar/exams-spring.cfm.

**Grads**

All of us here in the First Year Experience would like to congratulate all of the graduates! We are so proud of all of you and wish you well in your futures! Tell your families and friends that Commencement is Saturday May 16th at 2 p.m.

**Final Exams Tips**

1. **Study in chunks**— Although it’s tempting (but sometimes inevitable) cramming isn’t the best way to study. You should study in 20-50 minute increments and give yourself a 5 to 10 minute break between each session.

2. **Alternative study spots**— Don’t stick to one study spot. Switch things up when reviewing for exams.

3. **Jog around campus**— Just 20 minutes of cardio a day can help improve your memory. Get outside and go for a walk/run.

4. **Manage your time**— EVERY MINUTE COUNTS! Scheduling is essential during the weeks prior to exams. Make a realistic study schedule for yourself and stick to it! Prioritize according to which class you’ll need to study for the most.

5. **Talk to professors**— In the week leading up to finals, go and talk to your professor. Find out what’s important and ask what to focus on while studying. (Believe it or not, professors actually love when students do this).

6. **Make it interesting**— Having trouble memorizing facts? Turn it into a story that will help you remember. Can remember a list of words? Make a funny mnemonic to remember and make you smile at the same time.

7. **Other tips to remember**— Get some sleep, eat breakfast, listen to light music, form a study group, reward yourself.
