Family Members Checklist

Individual families will have different items on their checklist for the fall...here are a few suggestions for you to consider:

- Record student ID number, address, phone, and e-mail address for quick access.

- Check homeowner's insurance policy for coverage of personal belongings at school or purchase a renter's policy. Make a list of belongings, including serial numbers and approximate value for more expensive items. (Photos are a good idea!)

- Brief student on health insurance coverage and provide a copy of the insurance card.

- Decide about immunizations as recommended by your physician and make arrangements to have them done if needed. (Be sure to check your personal coverage to see if those immunizations are covered under your policy.)

- If student has prescription medications, be sure he/she has a supply for the first month and knows where and how to get refills.

- Brief student on car insurance coverage and provide a copy of the insurance card.

- Complete all financial aid and student billing documents. Remember, student bill is only found on E-Hive (not via mail).

- Review the Parent/Guardian and Student Contract and discuss content.
