The First Year Experience Staff welcome you to UWS! We are excited about getting to know you all and watching you grow both academically and socially throughout the year! If you ever have any questions, concerns, or just want to talk, come into our office (YU 230) and speak to one of our wonderful staff.

Peer Mentors

One resource that is available to first year students are the Peer Mentors. They are an important part of the FYE staff as they are experienced upperclassmen who provide information, support, and encouragement to our new students. Peer Mentors work with the First Year Seminar courses which are required of all students coming in with fewer than 21 credits. They are excited to get to know you!

Resources

The First Year Experience staff wants you to be a successful student here at UWS and there are so many resources that are available to our students. Having trouble with a paper? Visit the Writing Center! Want to find a job on or off campus? Go and chat with Career Services! Struggling in a class? Check out our Tutoring Labs! These resources and many others are there to make sure that our students get the help that they need.
