

Brittney Kemi, Class of 2015

Recipient of the Spirit Scholarship, which is fully funded by UW-Superior Faculty and Staff

“I chose UW-Superior because of its communal atmosphere - in my experience, no campus has been as welcoming and friendly as this. The university welcomed me with open arms as a freshman student several years ago, and has since allowed me to mature as an individual with the friendships, opportunities, and experiences I have gained through classes, events, sports, and other involvement on campus.

The UW-Superior staff has always positively challenged me as an individual. They have been understanding, supportive, and available for me each and every day throughout my time here. They have shared their knowledge with me to the best of their ability. While transitioning majors, the faculty helped me along every step of the process with positive feedback and advice for which I am grateful. “
