UNIVERSITY OF WISCONSIN – SUPERIOR  
POSITION DESCRIPTION  
Records Information System Manager  
Office of the Registrar  

Working Title: Records Information Systems Manager  
Hayes Hill Title/Level: Associate/No Prefix/Senior – Information Manager  
Position Reports to: Registrar  

Position Summary:  
The Records Information Systems Manager is responsible for the overall development, implementation, testing, maintenance, and documentation of Oracles PeopleSoft Student Information System (SIS) – (EHive) Student Records (SR) applications and system security/access requirements for the Registrar’s Office. The individual will function with little or no supervision and is an expert and campus-wide resource responsible and accountable for SR data integrity and validation, set up tables, system access and security, and database reporting and queries. The position serves as a primary liaison with PeopleSoft and IT to troubleshoot and resolve campus software and system problems. This individual provides leadership, direction, consultation, and training to staff to define and implement applications to support office and university business processes and provides recommendations to the Registrar’s office about improved business practices.  

Technical/Functional Lead Student Record Modules:  
- Manage Beginning of Term Processing; discontinue, term activation, advising holds, enrollment appointments and registration communication generation  
- Manage End of Term Processing; grades, academic standing, Dean’s list, lapse incomplete/ in-progress grades; undergraduate and graduate, and post enrollment requisite checking (PERC)  
- Analyze and develop solutions for existing academic record deficiencies  
- PeopleSoft testing; SIS, new upgrades and patches, approve movement to production  
- Coordinate testing after PUM, as well as student and faculty self-serve web screens.  
- Maintain SACR Foundation tables (Career, Program, Plan, load level rules)  
- Manage miscellaneous SIS/EHive tables (setup/maintain)  
- Manage academic policy updates to PeopleSoft  
- Update and build new Advising Reports to reflect new catalog year or approved curriculum changes  
- Oversee; milestones, prerequisites, student groups, service indicators  
- Process Post Enrollment Requisite Checking (PERC) for undergraduate students  
- Review to approve consortium agreement, submit approvals to Financial Aid  
- Manage historic student records and transfer to electronic format  
- Manage repeat course checking and coding at enrollment and after grades post  
- Develop and deliver training and workshops for Registrar’s Office and UW Staff when new functionalities are delivered  
- 25-Live administrator (room reservation software) for Registrar’s Office  

Data Requests, Reporting, and Documentation  
- Manage NSC and CDR report submissions, reconcile inaccuracies  
- Create queries, audits, and reports to assist the business process in the Registrar Office  
- Update Major Mania databases as needed  
- Coordinate queries using Campus Solutions Query or Microsoft SQL  
- Keep current procedure documentation for Student Records / Academic Advisement modules  

Outreach, Communication and Committee Activities  
- Serve as liaison between Records Office and Technology Services
