### Time Entry Methods for Timesheet

Time can be entered in standard hours denoting AM and PM or in 24-hour military time. See examples below:

- **Standard Time Entry:**
  - Need Colons
  - Need AM/PM or A/P

- **24 Hour Clock Entry:**
  - Military Time

</tr>
<tr>

</tr>
</tbody>
</table>

### Rounding of Hours

You will enter your actual arrival and departure times on your timesheet. HRS will calculate hours worked based on the schedule you enter.

HRS rounds to the nearest quarter hour based on the total hours and minutes reported per time entry.

<table>
<thead>
<tr>
<th>Rounding of Hours</th>
<th>Minutes</th>
<th>7.5-22.5</th>
<th>22.5-37.5</th>
<th>37.5-52.5</th>

Non-Exempt Employees:
Non-exempt employees must record all hours worked and must also “punch lunch.” Arrival time should be entered in the left-most “IN” box. The time you leave for lunch should be recorded in the first “OUT” box. The time you return from lunch should be recorded in the next “IN” box, and the time you depart for the day should be recorded in the right-most “OUT” box. If you do not take a lunch break, you should enter your arrival time in the “IN” box at the left margin, and your departure time should be entered in the second “OUT” box. If you have a partial-day absence recorded on the timesheet, click the plus sign at the right margin next to the date of the absence. This will give you another row for that particular date so you can enter your hours at work. After completing time entry, be sure to click the yellow “SUBMIT” button in the lower left corner of the screen.

Exempt Employees:
Exempt employees are only required to enter the total number of hours worked each day. If you have a partial day absence, be sure to enter your hours worked on that day or you will be underpaid. After completing time entry, be sure to click the yellow “SUBMIT” button in the lower left corner of the screen.
What are Exceptions?

- After timesheets are entered by employees, Time Administration processes several times per day to analyze the entered time according to UW System rules. Exceptions are created for time which meets specific criteria, such as a missed punch or if a shift is longer than twelve hours.
- Exceptions appear and can be viewed on the timesheet after Time Administration runs.
- Exceptions need to be corrected or allowed and run through Time Administration again before time can be approved by supervisor and sent to payroll.
- View Your Timesheet Exceptions by Going Directly to Your Timesheet - You can see if there are any exceptions that need to be reviewed, corrected, and/or allowed by viewing your timesheet. Supervisors are the only ones that can allow an exception. Employees can view and correct exceptions on their own timesheet.

NOTE: When viewing these pages, be aware of when employee or supervisor may have made changes to timesheet. These changes will not clear out the exception “time bomb” until after the time administration process has run.

After you have submitted your timesheet, your supervisor will review, correct exceptions, and approve by Tuesday following end of pay period. If all steps are not completed in a timely manner, you will not receive a paycheck on payday!

Best Practice for Logging Out of Systems:

- Be sure to “sign out” in the upper right hand corner of the HRS and close the browser via the red X.
- NOTE: If you do not see the sign out in HRS, click on Self Service
- Be sure to “log out” in the upper right hand corner of the My UW System portal and close the browser via the red X.
- Not practicing these steps can cause the next person to login to pull up your personal information and timesheet.
