

ENCOMPASS

Mentoring Program

“The University of WI – Superior Office of Multicultural Affairs Peer Mentor program’s mission is to *assist* incoming students of color in their *transition* to college by creating an environment which *encourages* their success and meets their *individual* needs.”

Who? Any incoming freshman or transfer American Indian, African American, Asian American, or Hispanic Latino student.

What? **One-on-one** guidance and encouragement from trained and naturally enthusiastic mentors during fall semester. Mentors are returning students of color who are in good academic standing.

Why? The first year of college can be **challenging** in many different ways—new friends, more rigorous academics, and unfamiliar personal obstacles. Through this program, you will be able to ask questions, share concerns, or just hang out with your mentor at **times that work best for you**. You will also participate in on-campus and off-campus **group events** once or twice a month. These events range from paddling with Superior Adventures to a finals study get-away at a local coffee shop. Why? Because it’s **fun!**

How? **First**, there is an application process that asks a variety of questions which help us understand a little about who you are. **Then**, we compare your background and interests with our mentors and choose the best fit for you.

Save the Date!

Monday, April 22nd

Last day to turn in applications for mentors!

Sunday, May 5th from Noon-5pm

Mentor Training
