Policy Subject: **Enrollment in Courses Numbers 001-099 (number AP1006)**
Cabinet Division: **Registrar's Office (Enrollment Management)**
Date Created: **9/26/10**

I. Background and Purpose

*Starting in 2011, a large number of UWS academic policies were looked at and revised or newly approved. A numbering system was created to indicate what year the policy was revised. In keeping with that practice, pre-existing policies that were not changed are being brought into the same format. Because they have been previously approved, a generic date of 9/26/10 is used as the date and policies will be assigned numbers starting with AP1001. Approvals are not necessary as they were approved prior to the date indicated above.

Enrollment in Courses Numbered 001-099

Students enrolled in Writing and Mathematics courses numbered 099 or lower will normally not be permitted to enroll for more than 15 credits during that term. Courses numbered 099 or lower are considered remedial courses and do not count toward the 120 credits needed for graduation. Grades earned in remedial courses are used to calculate semester and cumulative GPA. New freshman required to take WRIT 099 or MATH 090 and/or MATH 095 must successfully complete remedial coursework before completing 30 semester credits.
