

## **TIMELY WARNING NOTICES**

- The UW-Superior Department of Public Safety Director or a designee will develop Timely Warning Notices for the University Community to notify members of the community about serious crimes against people that occur on campus, where it is determined that the incident may pose an ongoing threat to members of the University Community. Timely Warning Notices are usually distributed for the following Uniformed Crime Reporting Program (UCR)/National Incident Based Reporting System (NIBRS) classifications:

### **Arson**

### **Criminal Homicide**

### **Robbery**

Cases of aggravated assault and sex offenses are considered on a case-by-case basis, depending on the facts of the case and the information known by the UW-Superior Department of Public Safety. For example, if an assault occurs between two students who have a disagreement, there may be no on-going threat to other University Community members, therefore; a Timely Warning Notice would not be distributed. Sexual Assaults are considered on a case-by-case basis depending on the facts of the case, when and where the incident occurred, when it was reported, and the amount of information known by the UW-Superior Department of Public Safety. Timely Warning Notices may be distributed for other crimes as determined necessary by the UW-Superior Department of Public Safety Director or a designee in his or her absence.

- The UW-Superior Department of Public Safety Director or a designee will develop Timely Warning Notices for the University Community to notify members of the community about serious crimes against people that occur on campus, where it is determined that the incident may pose an ongoing threat to members of the University Community. These Timely Warning Notices will be made available to the University Relations Office in a pre-written general format that may be edited with any known specific facts at the time of their notification by the UW-Superior Department of Public Safety Director or a designee in his or her absence upon the first discovery of a serious crime against people that has occurred on campus, where it is determined that the incident may pose an ongoing threat to members of the University Community.
- In an effort to provide Timely Notice to the University Community, and in the event of a serious incident which may pose an on-going threat to members of the University Community, a “Everyone E-mail Timely Warning Notice” is sent out to all students and employees on campus that are currently logged on to their campus email at that time. The alerts are generally written by the UW-Superior Department of Public Safety Director or a designee and they are approved and distributed to the University Community by the University Relations Office. Updates to the University Community

about any particular case resulting in a Timely Warning Notice may be distributed via Everyone E-mail, may be posted on the (Crime Alerts) web site or may be shared with the Stinger and/or KUWS 91.3 for a follow-up story. Timely Warning Notice posters may also be posted by the UW-Superior Department of Public Safety in campus buildings when deemed necessary. When Timely Warning Notices are posted in campus buildings, they are printed on orange paper and posted in the lobby/entrance area of the affected building(s) for seven days.

- The UW-Superior Department of Public Safety Director or a designee will develop Timely Warning Notices for the University Community to notify members of the community about serious crimes against people that occur on campus, where it is determined that the incident may pose an ongoing threat to members of the University Community. These Timely Warning Notices will be made available to the University Relations Office in a pre-written general format that may be edited with any known specific facts at the time of their notification by the UW-Superior Department of Public Safety Director or a designee in his or her absence upon the first discovery of a serious crime against people that has occurred on campus, where it is determined that the incident may pose an ongoing threat to members of the University Community. These general/specific Timely Warning Notices will then be edited, approved, and sent out via Everyone E-mail by the University Relations Office personnel as soon as possible after notification by the UW-Superior Department of Public Safety Director or a designee. *(And/Or by mutual agreement, these Timely Warning Notices may also be shared with the surrounding community law enforcement agency (Superior Police Department) in the event that it is determined that the serious crimes against people that occur on campus may pose an ongoing threat to members of the local Superior Community immediately surrounding the University Community. These Timely Warning Notices may also be generated by the local community law enforcement agency (Superior Police Department) in the event that it is determined by the Superior Police Department Chief or a designee in his or her absence, that the serious crimes against people that occur in the local Superior Community immediately surrounding the University Community may pose an ongoing threat to members of the University Community.)*
