University of Wisconsin-Superior Annual Fire Safety Report – 2010 Statistics Only

This UW Superior *Fire Safety Annual Report 2010* is intended to meet the requirements of the Campus Fire Safety Right to Know Act (Act), that became federal law with the passage of the Higher Education Opportunity Act of 2008, and the final rule published October 29, 2009 in the Federal Register, section 668.44. The Act requires colleges and universities to maintain a Fire Log about fires that occur in on-campus housing and publish an annual fire safety report beginning October 1, 2010.

This report will also contain statistics about the number of fires in on-campus housing, the amount of property damage, numbers of injuries and deaths for three previous years. The term “fire” is defined by the Higher Education Opportunity Act to mean “any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.” The Term “Fire Drill” is defined as a supervised practice of a mandatory evacuation of a building for a fire. Only those incidents that meet the definitions as defined by the Act are included in this report.

New FIRE SAFETY – STATISTICS ONLY:

Any institution that maintains an on-campus student housing facility must collect fire statistics, publish an Annual Fire Safety Report, and keep a “fire log.” These requirements are new and separate from the Clery Act requirements. However, to reduce administrative burden and to make it easier for students and parents to find the information, the regulations for data collection and dissemination will be very similar to the long-standing regulations developed for the Clery Act.

Fire Safety Statistics (2007, 2008, and 2009)

Table 3 below, summarizes the number of fires, the number of fire related injuries requiring medical treatment, number of fire related deaths, and the property damage caused by fire for each of the UW Superior residence halls for the years 2007-2009. Included with the statistics are the numbers of fire drills held in the calendar year for each residence hall.

- One fire in a residence hall was logged during the 2007 - 2009 reporting period. The cause of the fire was attempted arson. A resident intentionally used a microwave oven to start combustible paper and other materials on fire in 2007. The fire and damages were contained to the microwave oven, with a replacement cost of \$50. No injuries or deaths occurred.
