Fire Safety Statistics (2010, 2011, and 2012)

Table 3 below summarizes the number of fires, the number of fire related injuries requiring medical treatment, number of fire related deaths, and the property damage caused by fire for each of the UW Superior residence halls for the years 2010-2012. Included with the statistics are the numbers of fire drills held in the calendar year for each residence hall.

Four fires in a residence hall were logged during the 2010 - 2012 reporting period. The cause of the two fires in 2010 and 2011 was food burning in a microwave oven creating a lot of smoke. The fires and damages were contained to the microwave ovens, with a replacement cost of \$50 each.

There were two incidences of fire recorded for 2012. One fire was recorded as an unauthorized fire and resulted in a small charring of a paper flyer with no other property damage. The second fire in 2012 was reported as an attempted arson when a paper flyer posted on a door was burned, causing \$100 in property damage to repair the door. No injuries or deaths occurred.
