

WISCONSIN STATUTES
CHAPTER 51
STATE ALCOHOL, DRUG ABUSE, DEVELOPMENTAL
DISABILITIES AND MENTAL HEALTH ACT

51.20 Involuntary commitment for treatment.

(1) PETITION FOR EXAMINATION.

(a) Except as provided in pars. (ab), (am), and (ar), every written petition for examination shall allege that all of the following apply to the subject individual to be examined:

1. The individual is mentally ill or, except as provided under subd. 2. e., drug dependent or developmentally disabled and is a proper subject for treatment.

2. The individual is dangerous because he or she does any of the following:

a. Evidences a substantial probability of physical harm to himself or herself as manifested by evidence of recent threats of or attempts at suicide or serious bodily harm.

b. Evidences a substantial probability of physical harm to other individuals as manifested by evidence of recent homicidal or other violent behavior, or by evidence that others are placed in reasonable fear of violent behavior and serious physical harm to them, as evidenced by a recent overt act, attempt or threat to do serious physical harm. In this subd. 2. b., if the petition is filed under a court order under s. 938.30 (5) (c) 1. or (d) 1., a finding by the court exercising jurisdiction under chs. 48 and 938 that the juvenile committed the act or acts alleged in the petition under s. 938.12 or 938.13 (12) may be used to prove that the juvenile exhibited recent homicidal or other violent behavior or committed a recent overt act, attempt or threat to do serious physical harm.

c. Evidences such impaired judgment, manifested by evidence of a pattern of recent acts or omissions, that there is a substantial probability of physical impairment or injury to himself or herself. The probability of physical impairment or injury is not substantial under this subd. 2. c. if reasonable provision for the subject individual's protection is available in the community and there is a reasonable probability that the individual will avail himself or herself of these services, if the individual may be provided protective placement or protective services under ch. 55, or, in the case of a minor, if the individual is appropriate for services or placement under s. 48.13 (4) or (11) or 938.13 (4). The subject individual's status as a minor does not automatically establish a substantial probability of physical impairment or injury under this subd. 2. c. Food, shelter or other care provided to an individual who is substantially incapable of obtaining the care for himself or herself, by a person other than a treatment facility, does not constitute reasonable provision for the subject individual's protection available in the community under this subd. 2. c.

d. Evidences behavior manifested by recent acts or omissions that, due to mental illness, he or she is unable to satisfy basic needs for nourishment, medical care, shelter or safety without prompt and adequate treatment so that a substantial probability exists that death, serious physical injury, serious physical debilitation, or serious physical disease will imminently ensue unless the individual receives prompt and adequate treatment for this mental illness. No substantial probability of harm under this subd. 2. d. exists if reasonable provision for the individual's treatment and protection is available in the community and there is a reasonable probability that the individual will avail himself or herself of these services, if the individual may be provided protective placement or protective services under ch. 55, or, in the case of a minor, if the individual is appropriate for services or placement under s. 48.13 (4) or (11) or 938.13 (4). The individual's status as a minor does not automatically establish a substantial probability of death, serious physical injury, serious physical debilitation or serious disease under this subd. 2. d. Food, shelter or other care provided to an individual who is substantially incapable of obtaining the care for himself or herself, by any person other than a treatment facility, does not constitute reasonable provision for the individual's treatment or protection available in the community under this subd. 2. d.

e. For an individual, other than an individual who is alleged to be drug dependent or developmentally disabled, after the advantages and disadvantages of and alternatives to accepting a particular medication or treatment have been explained to him or her and because of mental illness, evidences either incapability of expressing an understanding of the advantages and disadvantages of accepting medication or treatment and the alternatives, or substantial incapability of applying an understanding of the advantages, disadvantages, and alternatives to his or her mental illness in order to make an informed choice as to whether to accept or refuse medication or treatment; and evidences a substantial probability, as demonstrated by both the individual's treatment history and his or her recent acts or omissions, that the individual needs care or treatment to prevent further disability or deterioration and a substantial probability that he or she will, if left untreated, lack services necessary for his or her health or safety and suffer severe mental, emotional, or physical harm that will result in the loss of the individual's ability to function independently in the community or the loss of cognitive or volitional control over his or her thoughts or actions. The probability of suffering severe mental, emotional, or physical harm is not substantial under this subd. 2. e. if reasonable provision for the individual's care or treatment is available in the community and there is a reasonable probability that the individual will avail himself or herself of these services or if the individual may be provided protective placement or protective services under ch. 55. Food, shelter, or other care that is provided to an individual who is substantially incapable of obtaining food, shelter, or other care for himself or herself by any person other than a treatment facility does not constitute reasonable provision for the individual's care or treatment in the community under this subd. 2. e. The individual's status as a minor does not automatically establish a substantial probability of suffering severe mental, emotional, or physical harm under this subd. 2. e.
