

Tips to Prepare for Tutoring

Bring relevant materials such as lecture notes, books, assignments, and graded tests

01

Have specific questions you'd like to ask the tutor.

02

Do your homework (attempt all questions) so that you can recognize what you truly need help with

03

Make notes of where you struggle in order to save time in asking the tutor your questions

04

Do not expect the tutors to do your homework. Tutors will help you learn HOW to learn the material

05

Arrive to tutoring on time to get the most out of your tutors time.

06

DURING YOUR SESSION

01 ESTABLISH A GOAL

Establishing a goal ahead of time for your tutoring session, and tell your tutor exactly what you hope to accomplish. Your tutor will work reasonably to accomplish your goal within the tutoring session

02 EXPLAIN YOUR LEARNING STYLE

Explain how you approach or think about a problem so that the tutor can help you accordingly. Don't know your learning style? [Take a test here](#)

03 PAY CLOSE ATTENTION

Notice how the tutor approaches the problem so that you can apply that method when the tutor is not around

04 TAKE NOTES

Taking notes during the tutoring session on such things as explanations and instructions for working through the problem

05 YOUR TUTOR WILL NOT DO THE WORK FOR YOU

They will help you understand the subject matter so that you can apply the concepts to your homework or test problems
