

Adding Artifacts to an Existing Collection

1. On the My Items screen, you will need to:
 - A. Check the boxes next to the artifacts, reflections, etc. that you would like to add to the collection.
 - B. Click on the **More Actions** dropdown menu.
 - C. Select **Add to Collection**.

2. A new window will open that lists your collections, check the box next to the collection you want to add these items to. Click the **Add** button.

3. You will be taken back to the My Items screen. It will show that the collection has been modified and the new artifacts have been added.

Note: You can use the same artifacts in multiple collections.
