

Welcome to UW-Superior! In an effort to protect your personal data, UW-Superior uses Okta Verify. You will need to set up your Okta Verify account to access all of your UWS apps including E-Hive, Canvas and more. There are two parts to creating your account:

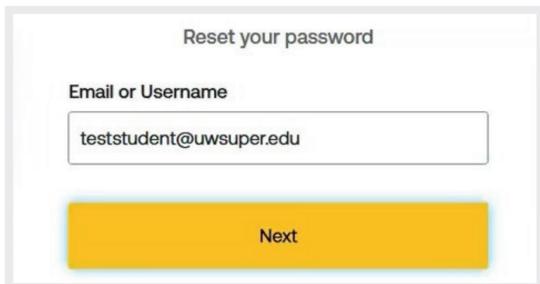

1. **Setting up your uwsuper account**
2. **Linking your uwsuper account to Okta Verify**

Setting up your uwsuper account

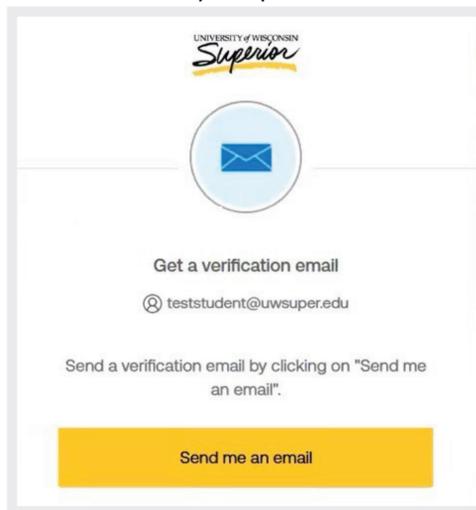

1. On your computer or tablet, visit <https://myapps.uwsuper.edu>
2. Click the “New user/forgot password” link below the yellow sign-in button

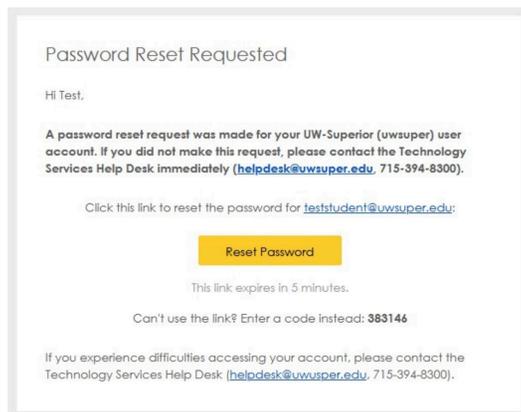

3. Enter your uwsuper email or username and click the next button. You can find your uwsuper email/username on your acceptance letter.

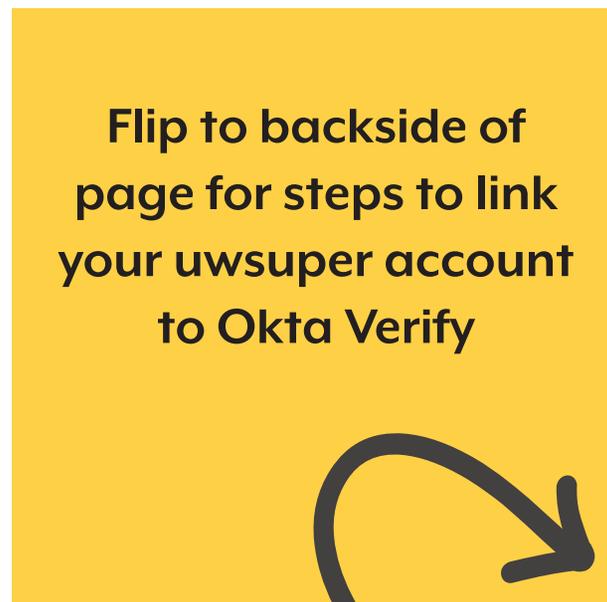

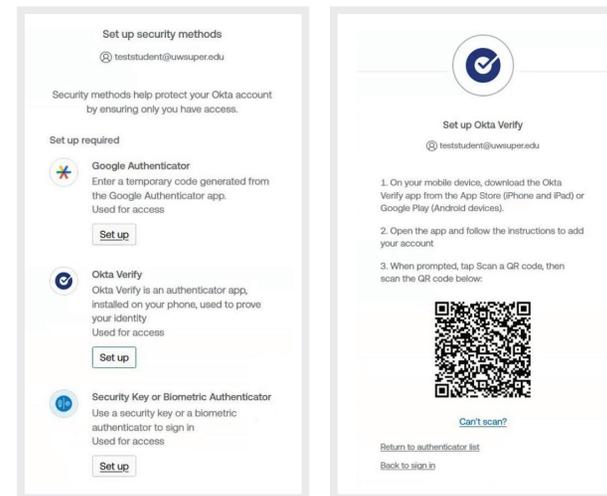

4. Get a verification email by clicking on send me an email. This verification email will be sent to your personal email.

5. You should receive an email from Okta <noreply@okta.com> with the subject “UW-Superior Password Reset.” Open this email, click the “Reset Password” button and follow the prompts to create your uwsuper password.

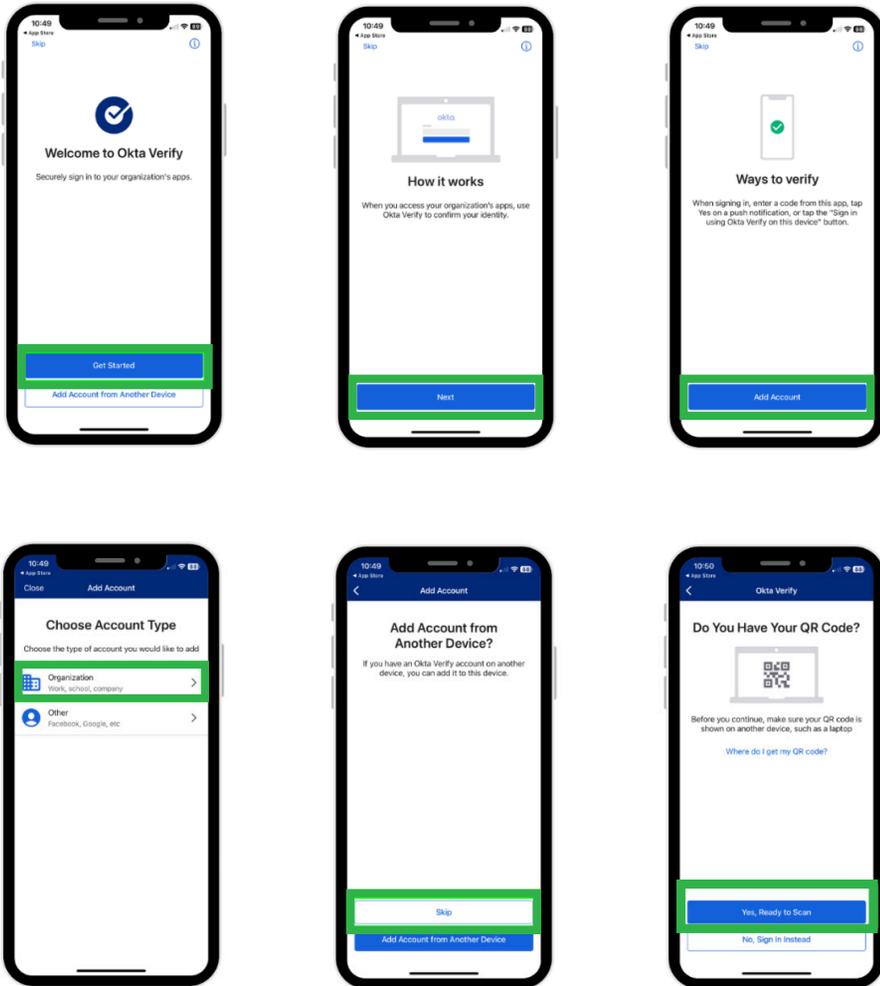

6. Under security methods, click the “Set up” button under Okta Verify. You will then come to a screen with a QR code. **Stay on this screen for now.**

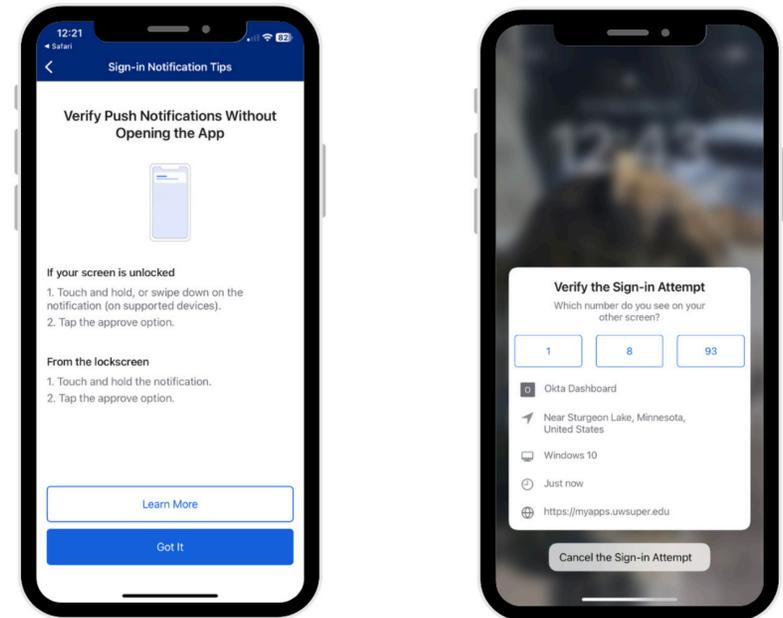

Linking uwsuper account to Okta Verify

1. On your mobile device, download the Okta Verify app
2. Open the app and follow the instructions to add your account

3. Scan the QR code shown on your personal computer or tablet (from step 6 in the Setting up your uwsuper account section)

4. You will then be prompted to select which number you see on your personal computer/tablet

Your Okta Verify setup is now complete!
